

K-LOVE is a family friendly radio station servicing the Chicagoland area on 94.3 FM. I can turn this station on with my young niece and nephew in the room/car and not worry about foul language or poor musical tastes. If KLOVE is displaced by an LPFM we would lose valuable programming that services entire families. Plus it is an uplifting Christian station that encourages and unites. The Chicago area does not need yet another radio station blasting music that is detrimental to the family. Please do not allow these LPFM stations to take over our KLOVE station. Thank you.
